SUMMARY

Passionate and driven front-end web developer with diverse experience spanning from tutoring, customer service at Subway, and hospitality at Matsuri Tuna. Excelled in leveraging HTML/CSS and React.js to enhance project outcomes while demonstrating unparalleled team collaboration and a strong work ethic. Proven track record of constant growth and proactively challenging myself to become better in programming.

PROJECTS

ARUM - Mental Health Support App

Front End Developer

National LikeLion Hackathon

June 2024 - August 2024

- Actively engaged in creative design and project management as a leader.
- Developed front-end user experience using React Native, TypeScript, and various libraries (Axios, MUI, react-router-dom, etc.).
- Developed reusable components with dynamic rendering based on state changes, optimizing performance and scalability.

Bingle - Ice Breaking Bingo

Front End Developer

Kookmin LikeLion Hackathon

August 2024 - Present

- Implemented an easy login process using the Social Media Login API (Kakao).
- Managed asynchronous actions with Axios and React hooks to handle API requests and real-time updates, improving responsiveness and user experience.
- Currently fixing minor issues before deployment by November 10th, 2024.

KMU Breakroom

Front End Developer

Web Client Computing Class

April 2024 - May 2024

- Created an engaging and responsive website design using Figma, Vanilla JavaScript, HTML/CSS.
- Implemented the Django Framework for the server and database.

OTHER EXPERIENCES

Private English Tutor

Jaranda

Seoul

May 2021 - Present

- Communicated regularly with parents regarding instruction, assessment, and progress.
- Utilized positive reinforcement to motivate students, and foster confidence.

Sandwich Artist

Subway

Seoul

June 2022 - March 2023

- Greeted customers professionally and maintained a welcoming environment.
- Prepared a range of sandwiches and salads according to customer preferences.

Restaurant Hostess and Server

Matsuri Tuna

Seoul

December 2020 - March 2022

- Delivered exceptional customer service upholding the establishment's high standards.
- Managed phone and online orders, ensuring timely preparation and fresh food.
- Maintained clean and organized workplace, including dining room area.

Seoul, Gangdong-gu 05292

Dear Hiring Manager,

Thank you for the opportunity to apply for the Front End Developer Intern role at your company. I am writing to express my interest in the Front End Developer Intern position and to highlight my relevant experience and qualifications. As a hard-working, passionate junior front-end developer with experience in building user-centric mobile and web applications, I am eager to bring my skills in React.js and front-end technologies to your team. My experience with component-based architecture will enable me to build scalable and maintainable web applications for your team.

In my role as a front-end developer for ARUM and Bingle, I led the development from conception to deployment, utilizing React Native, React.js, and TypeScript. My responsibilities also included project design and management, where I focused on creating a meaningful user experience ranging from personal reflection and self-awareness to an efficient ice-breaking tool for new organizations. These projects refined my skills in API integration, implementing user-friendly login processes, and creating efficient, interactive components. For both ARUM and Bingle, I integrated a REST API using Axios to deliver real-time updates, resulting in a smoother user experience.

I am a hard-working college student (with a GPA of 4.16 in International Business and Information Technology), currently attending Kookmin University in Seoul, South Korea. Throughout my academic career, I have been consistently praised as diligent by my professors and peers. While working on academic and extracurricular projects, I have developed proven leadership, interpersonal, and teamwork skills, which I hope to leverage in the Front-End Developer Intern role at your company.

After reviewing my resume, I hope you will agree that I possess the qualifications and experience you are seeking. I look forward to elaborating on how my specific skills and abilities can benefit your organization. I can be reached at 010-9603-0188 or via email at alex2321218@gmail.com to arrange a meeting.

Thank you for your consideration, and I look forward to the opportunity to contribute to your team and further develop my skills.

Sincerely,
Sohyun Ahn.
